EXPERIENCE

Software Engineer
Medikabazaar

📅 March 2022 – Present   📍 Mumbai,India

- Developed & led the frontend of Medikabazaar's healthcare e-commerce platform from end to end, while also contributing to the mobile app using React Native.
- Built & added 50+ Blogs to enhance product discovery & boost SEO performance.
- Designed, developed unit & integration tests using Cypress to ensure code quality and reliability.
- Conduct code reviews and provide constructive feedback in pull requests, maintaining high code quality.
- Integrated Push notifcation with Firebase Cloud Messaging & Clevertap
- Significantly improved web vitals score, reduced LCP from 12s to 6s, marking a 50% improvement, while optimizing FCP from 8s to 2.3s, achieving a 71.25% enhancement & resulted in 275% increase in overall vitals, elevating from 8 to 30.
- Developed android & ios applications using capacitor.js & next.js, streamlining the process with a shared codebase minimizing development efforts and time investment.
- Integrated Tap (UAE), PayU, Juspay, Simpl, Amazon Pay & Amazon Pay Later payment gateways into the web, Android, and iOS platforms with their respective SDKs
- Built & launched e-commerce product on multiple platform & countries: Web, Android, Ios, Web UAE
- Integrated Google Analytics, Facebook Pixel, and CleverTap for analytics & targeted consumer engagement enhancements.
- Led and engineered a migration process shifting the legacy website built on jQuery and Shopify to an in-house tech stack driven by Next.js, also Android & iOS apps to Capacitor.js.
- Developed complete shopping flow from product discovery to order completion, including checkout, payment, order review, and KYC. Also built adaptable email templates for customer notifications.
- Developed multi-platform Partner and Manager App of MBARC, a platform that offers asset management, recycling, & equipment care solutions for the medical industry.

  Skills NextJs, ReactJs, React Native,Typescript, Javascript, Redux, CapacitorJs, Node.js, Tailwind

Software Development Engineer I
Primathon

📅 June 2021 – March 2022   📍 Delhi,India

- Collaborated with the client to revamp their existing cross-platform app, utilizing the Ember.js framework and Tailwind CSS to improve the app's frontend architecture and overall design.
- Implemented responsive web design techniques, ensuring the app seamlessly adapts to various screen sizes and devices, providing an optimal user experience for both desktop and mobile users.
